

My Favorite Movie!

By Jeffrey

I like to watch movies. I like movies like the Magic School Bus, Shark Tale, and Lady and the Tramp, but Casey and Friends Time for School is the best movie I have ever seen. When I watch Casey and Friends Time for School I feel happy because it teaches me how to behave at school. Today, I am going to tell you about my favorite movie.

First, I would like to talk about the characters. In the movie there is Casey, a boy who goes to school, his friends, and their teacher.

I especially like when they take turns because it teaches me how to share and be a good friend.

Next, I will talk about what happens in this video. Casey goes to school and the camera films his whole day. They show how to say hello to people in the halls. Also, how to listen to the teacher so you can do your work. The movie shows you how to follow rules including keeping your hands to yourself.

Last, I will tell you the best part of the movie. I really like when Casey learns all about Playground behavior. I know that you should have fun at recess but no pushing. I thought it was fun to watch the first time and I can't wait to see it again.

In conclusion, Casey and Friends Time for School is my all time favorite movie. It is really fantastic!
