

I cannot recommend the Model Me Kids social skills curriculum highly enough! This program is a true gem for children on the autism spectrum who are working to enhance their social skills. The curriculum is well-structured, with engaging videos that illustrate a variety of social scenarios, making it easy for kids to understand and relate to the concepts. As a parent, I've seen a noticeable improvement in my child's confidence and social interactions since we started using this curriculum. The program not only teaches valuable skills but also fosters a sense of empowerment and self-awareness. My son is now 14 years old and recently started high school. He still uses his Model Me Kids videos to help him in new social situations. We will be Model Me Kids fans for life!
